

# Teton River Restoration (Cushman Property)

Funded by the US Fish and Wildlife Service, Arthur B. Schultz Foundation, National Fish and Wildlife Foundation, Five Star Restoration Program, Donald C. Brace Foundation, One Fly Foundation, Upper Snake River Fly Fishers, U.S. Congress and Friends of the Teton River.

**Before Conditions:**  
Unstable and eroding stream banks,  
lacking vegetation.

**Constructing First Soil Terrace**

**Constructing Second Soil Terrace:**  
Stabilizes banks and reduces down cutting.

**Bank reinforcement** using coconut husk  
mesh/netting.

**Banks are revegetated** with willows and  
wetland plants.

**After Conditions:**  
Stable, vegetated stream banks  
capture sediment, shade stream  
and provide habitat.
