

ISDA Well Monitoring – Request for involvement/Application sheet

Thank you for expressing interest in the ISDA Well Monitoring program. All applications will be reviewed upon receipt, and 8-10 wells will be selected to participate. An ISDA member will notify you if your well is selected for inclusion in our monitoring program.

If selected, about 2 weeks prior to our arrival we will send a letter letting you know when we will begin monitoring in your region. On arrival we will check at your door to let you know who we are and confirm the sampling process. We will then purge the well, essentially emptying the well of standing water so that what we collect is “fresh” and has not had time to change in any pipes. There is no charge; samples will be submitted to the laboratories for testing. ISDA tests for over 100 pesticides, nitrate monitoring is dependent on Idaho Department of Environmental Quality funding. These results will be shared with you once they have been processed through our system.

To evaluate your application, and to collect the most representative sample water from your well if it is chosen, we ask for the information listed below. Please fill in all if the information below, and return it to ISDA by email or mail (addresses at bottom of page).

Returning this form confirms your permission allowing ISDA personnel sample your well water from an exterior location. This form does not guarantee acceptance into the well monitoring program.

Owner/Contact Name: _____

Street Address: _____

Mailing Address: _____

Telephone Contact Numbers: _____

Email Address: _____

Where is the wellhead in relation to the house? (Please feel free to draw a map on the reverse) _____

Where is the nearest hydrant or spigot to the wellhead, where the well water does not flow through filters, softeners, chlorinating devices or surge tanks? (Please feel free to draw a map on the reverse) _____

May we sample the well if no one is home? _____ Yes _____ No

Are there pets that could pose problems for ISDA sampling personnel? _____ Yes _____ No
